

## Using Remote Desktop Services (RDS) to Access Database (SQL Plus Program) in General Building 600 (G 600)

There are about 50 to 55 computers in G 600. The SQL Plus program is in the CST folder on each computer's desktop. The following steps are to use the Remote Desktop Services (RDS) to access the SQL Plus program.

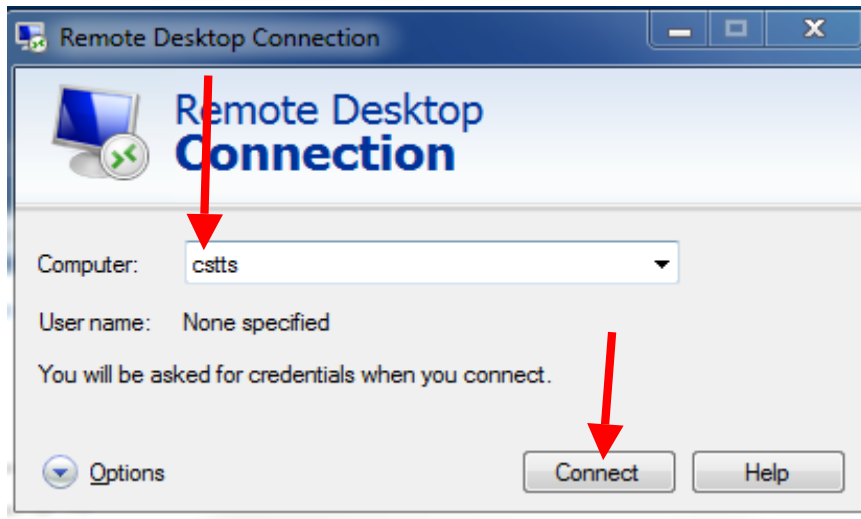

1. Click on the **CST** folder.

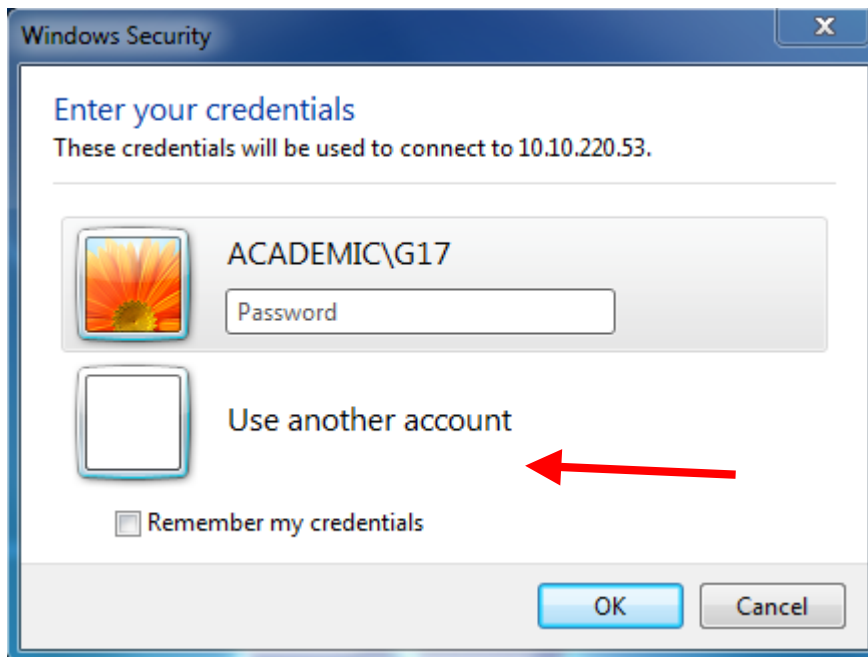

2. Click on the “**Remote Desktop Connection**” (RDC) icon.

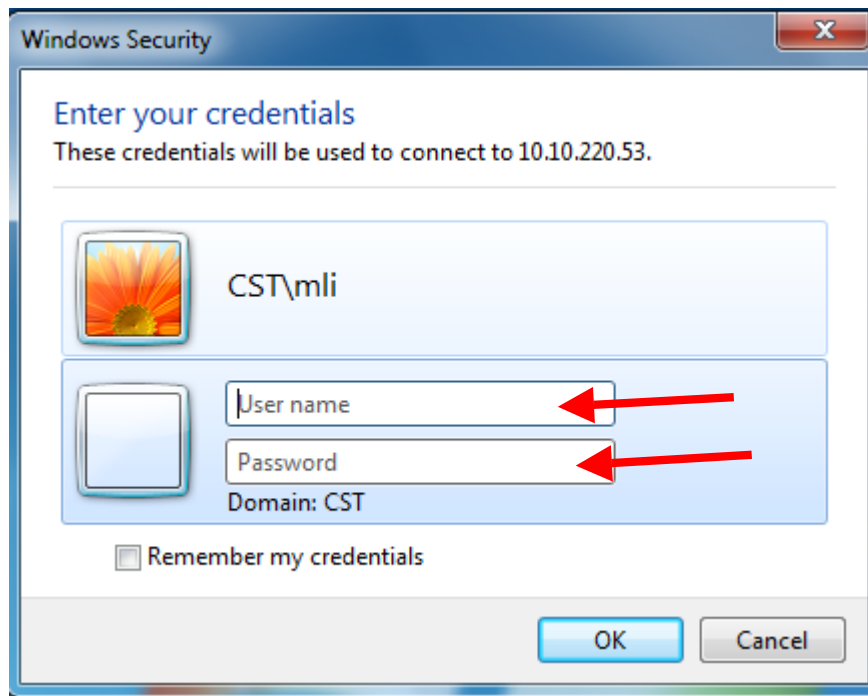

3. The Remote Desktop Connection (RDC) screen is appeared. Then enter “**cstts**” and click on the “Connect” button.

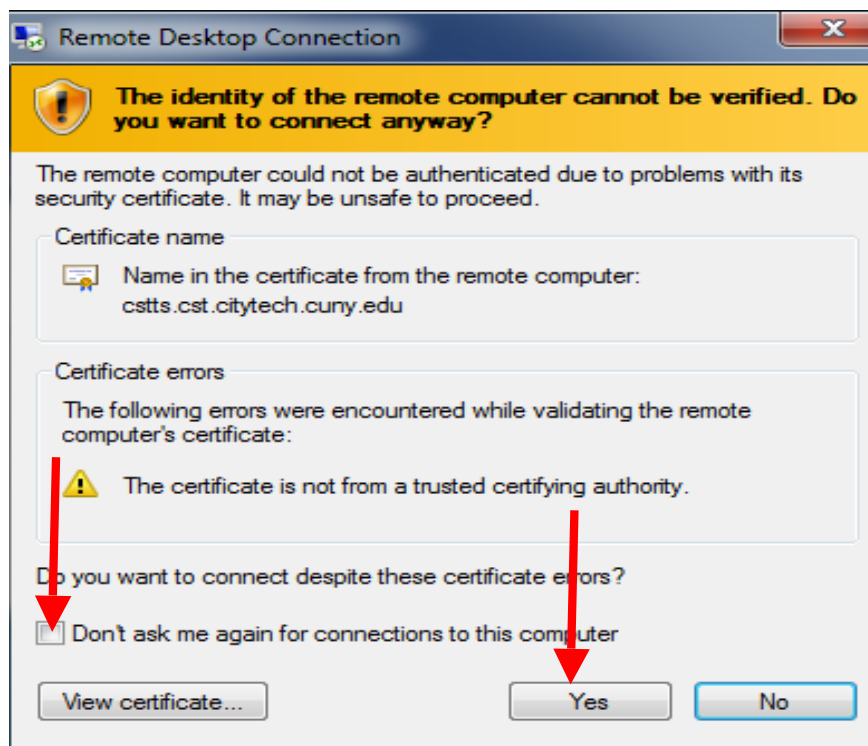

4. Select the “**Use another account**” link.

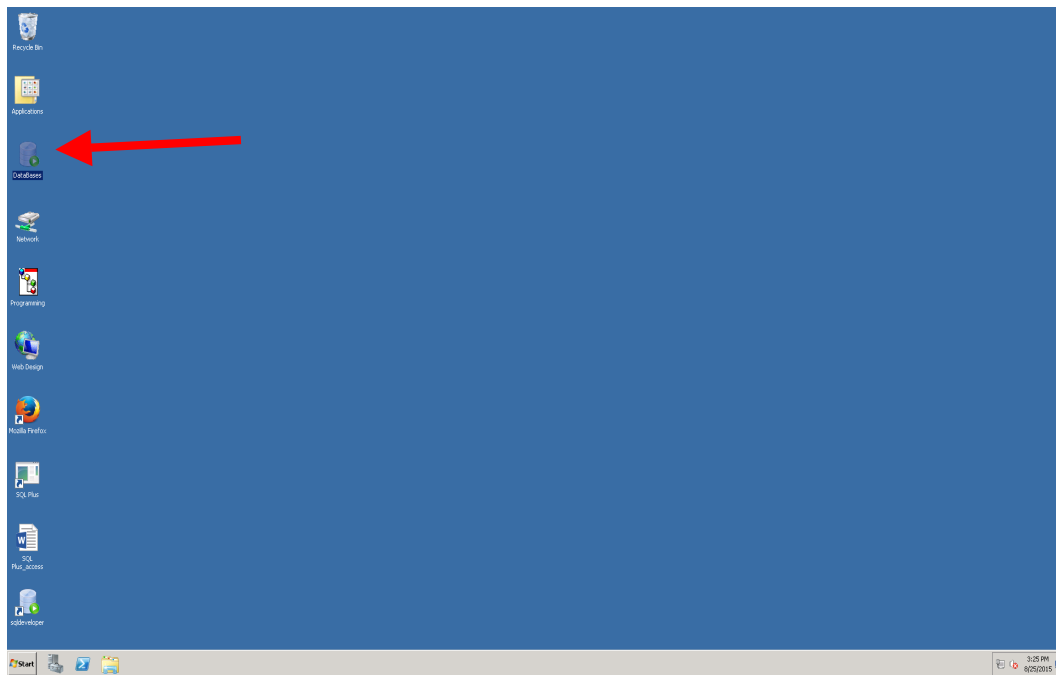

5. \*\* Enter username: **cst\CUNYfirst 8 digits number**  
\*\* Enter password: **tester**

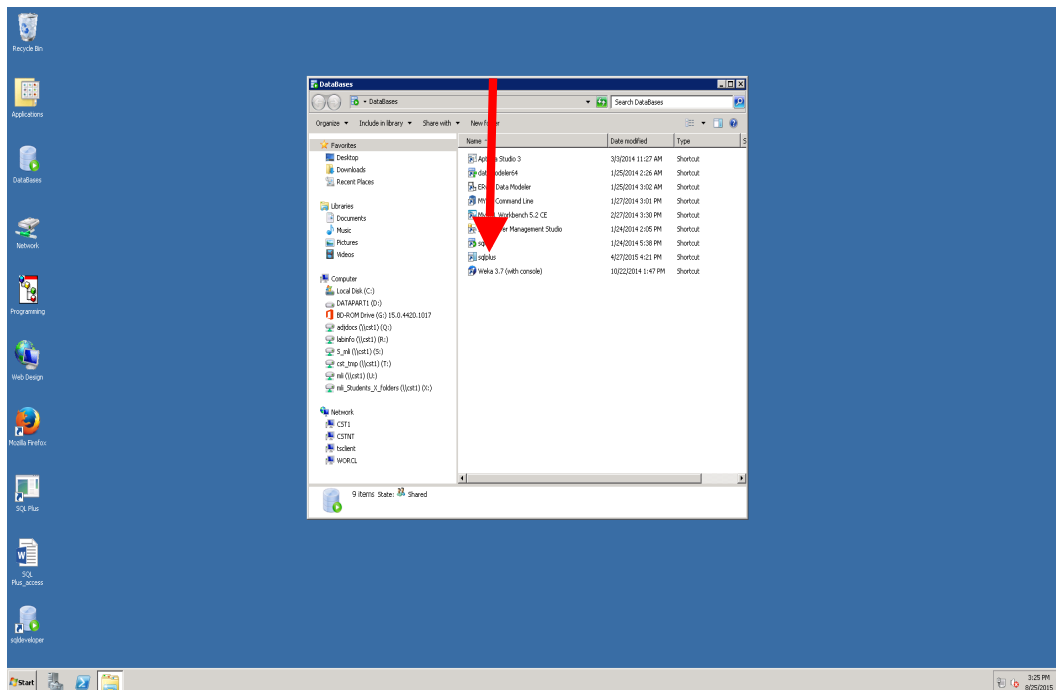

6. Check on the check mark box "Don't ask me again..." and then click on the "Yes" button.

7. Click on the **DataBases** icon.

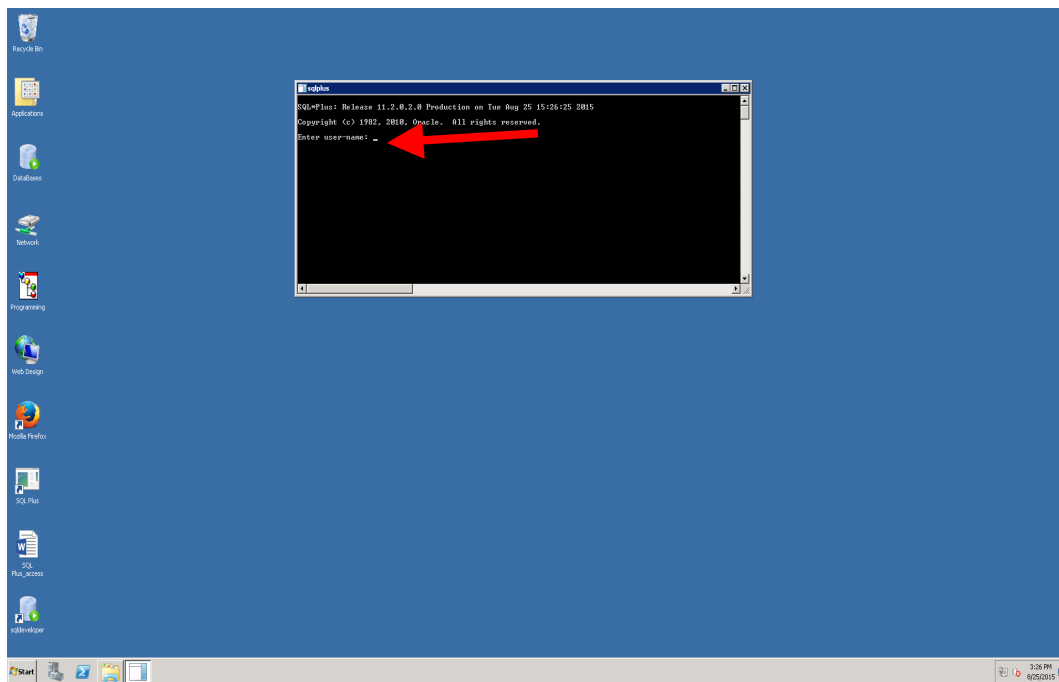

8. Click on the **sqlplus** icon.

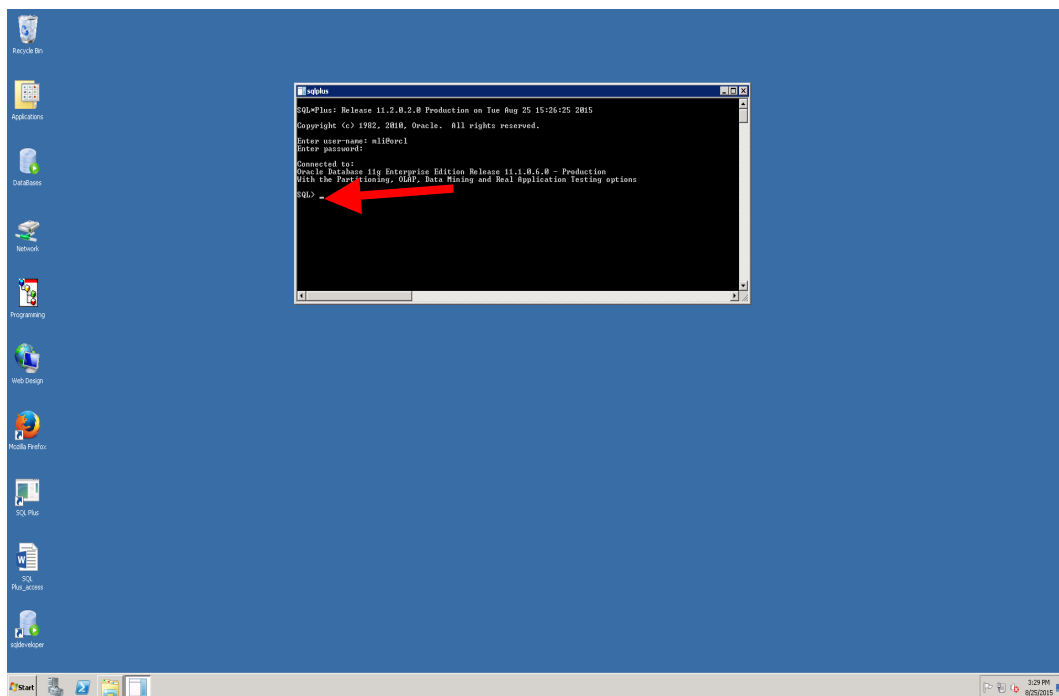

9. \*\* Enter user-name: **CUNYfirst 8 digits number@orcl**

\*\* Enter password: **tester**

10. **SQL>** command prompt is shown on the console screen, and it is ready for you to do homework.

11. Thank you for using the CST Department's Remote Desktop Services (RDS) Terminal Server (**cstts**) to access SQL Plus program in G 600!!
